

PUBLICATIONS

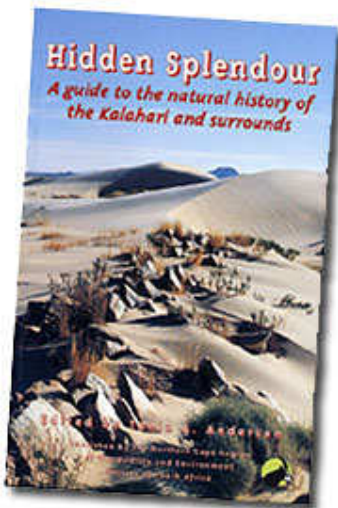

Beginner's Guides to the plants and animals of Kimberley and surrounds.

These guides are aimed at explaining how to identify the common plants and animals in the veld around Kimberley. Interesting anecdotes and facts accompany the text and sketches provide for easy identification of each species. The booklets are indispensable resources for Grade 7 to 12 learners and teachers, and are especially suitable for environmental projects and trips into the field to learn more about our natural environment.

These booklets were written and edited by field experts on the staff of the McGregor Museum, and printed by ShareNet, an environmental education networking project co-ordinated by WESSA. Copies are available at the low price of R 15 each.

Hidden Splendour - A guide to the natural history of the Kalahari and surrounds. This guide is written in a popular style for the layman and amateur naturalist. It offers detailed information on the natural history of the Kalahari and surrounds. It should be of value to those with a passion for plant and animal life, and anyone with an interest in the environment and conservation. The guide includes:

- sections on the landscape, early travellers, mineral wealth, water sources and archaeology of the Northern Cape north of the Orange River
- descriptions of the National Parks, Nature Reserves and conservation areas, and sites of special interest to visit
- interesting information on the various vegetation types, plant species and the animal life that is found in each vegetation type
- an interesting range of colour photographs, colour paintings, black & white sketches, and colour maps illustrating the above
- checklists of the common birds, mammals, reptiles, amphibians and plants
- useful contact addresses and further reading for additional information.

A5 size; 80pp; paperback. Price R35.00.
